

# Encora — Spec Sheet (v0.1)

Smart returns. Verified.

## Overview

Encora provides neutral infrastructure for returns, reuse, and EPR. Modules: Bins, Tags, Verify, Connect.

## Modules

- Bins: Smart kiosks & return bins that auto-log drop-offs
- Tags: QR/UHF identifiers linked to chain-of-custody
- Verify: Photo/AI checks for fraud deterrence & audit trails
- Connect: REST APIs & webhooks for POS / campus ID / OMS

## Deployment

Start with one or more smart bins; add lanes/locations as you scale. Options: kiosk/bin or counter-light.

## Pilot Basics

- Hardware: smart bin(s), scanners, photo capture
- Software: Verify dashboard & analytics
- Launch kit: signage, comms templates, ops checklist
- Customer provides: point person, placement, washing plan

## Integrations

Compatible with web & mobile flows; APIs for POS/OMS and data lakes. Optional AI verification.
